Consciousness

Consciousness is the state or quality of awareness or of being aware of an external object or something within oneself. It has been defined variously in terms of sentience, awareness, qualia, subjectivity, the ability to experience or to feel, wakefulness, having a sense of selfhood or soul, the fact that there is something "that it is like" to "have" or "be" it, and the executive control ...

Consciousness and society (Book, 2002) [WorldCat.org]

H. Stuart Hughes was perhaps the greatest chronicler of the modern intellectual history of Europe. His monumental work, "Consciousness and Society", was a benchmark. Hughes' ideas, and the way they are expressed in "Consciousness and Society", have become paradigms of twentieth-century scholarship.

Is There A Difference Between Conscience and Conscious?

"Consciousness is generally defined as awareness of your thoughts, actions, feelings, sensations, perceptions, and other mental processes," explain authors Bernstein, Penner, and Roy. "This definition suggests that consciousness is an aspect of many mental processes rather than being a mental process on its own.

Consciousness and society

It would seem that social deprivation causes lasting damage to their emotional wellbeing, intelligence and physical stature. So to develop consciousness one needs to be nurtured within a complex caring society, indeed a child doesn't seek attention - it seeks existence. We conceive ourselves through the eyes of others.
