Influenza

Influenza, commonly known as the flu, is an infectious disease caused by an influenza virus. Symptoms can be mild to severe. The most common symptoms include: high fever, runny nose, sore throat, muscle pains, headache, coughing, sneezing, and feeling tired. These symptoms typically begin two days after exposure to the virus and most last less than a week.

MSACL 2019 US Program

= Emerging. More than 5 years before clinical availability. (17.55%) = Expected to be clinically available in 1 to 4 years. (42.72%) = Clinically available now.

Breast cancer

Breast cancer is cancer that develops from breast tissue. Signs of breast cancer may include a lump in the breast, a change in breast shape, dimpling of the skin, fluid coming from the nipple, a newly inverted nipple, or a red or scaly patch of skin. In those with distant spread of the disease, there may be bone pain, swollen lymph nodes, shortness of breath, or yellow skin.

What are the startup costs for a cosmetic business ...

If you have an idea to startup a cosmetic business you might be wondering how much it will cost you and

whether it will be profitable. The original question posed to us was on a business forum and the questioner specifically wondered, how profitable a natural cosmetic business (skin care line) that was started in my kitchen.
