Space.com is where humanity's journey to new and exciting worlds is transmitted back down to Earth. Where we vicariously explore the cosmos with astronauts, ...

Infrastructure

As the delta-V for a mission goes up, the amount of propellant required goes up exponentially (or looking at it another way: the amount of payload shrinks exponentially). Large amounts of propellant are expensive, but the higher the mass-ratio the higher the likelihood that the spacecraft will not be reusable.

hmobil.com

The new york-based 'multi-planetary' design agency, AI Spacefactory, gives us a closer look of what life on Mars might actually be like as they receive 1st place in the finale of NASA's 3D printed habitat challenge. After the final phase saw structures built head to head over a duration of 30 hours and 3 days. the winning 15-foot tall prototype, called 'MARSHA', prevailed due to its level of ...

Wish Spells

List of Wish Spells - Make a wish and cast these spells correctly and your wish will come true. The more outrageous the wish the more magical power is needed to cast it correctly. When miss-cast these spells usually fail by making the wish never come true.

Augmented reality for STEM learning: A systematic review ...

3.2. Analysis. The articles that met the inclusion criteria were analyzed using a qualitative content analysis method, which is a thematic analysis concentrating on the relationship between content and context (Elo & Kyngäs, 2008; Hsieh & Shannon, 2005). The authors defined a group of categories for analysis with their corresponding sub-categories, according to each research question.
