Spinal muscular atrophy

Spinal muscular atrophy (SMA) is a rare neuromuscular disorder characterised by loss of lower motor neurons and progressive muscle wasting, often leading to early death.. The disorder is caused by a genetic defect in the SMN1 gene, which encodes SMN, a protein widely expressed in all eukaryotic cells (that is, cells with nuclei, including human cells) and necessary for survival of motor neurons.

Nusinersen versus Sham Control in Later

Nusinersen is an antisense oligonucleotide drug that modulates pre-messenger RNA splicing of the survival motor neuron 2 (SMN2) gene. It has been developed for the treatment of spinal muscular ...

Physical Therapy | Oxford Academic

The official journal of the American Physical Therapy Association. Publishes content for an international readership on topics related to physical therapy.

Emerging Science

Emerging science Titles. 001 Efficacy and safety of PXT3003 in patients with Charcot-Marie-Tooth type 1A (CMT1A): results of PLEO-CMT, an International Pivotal Phase 3 Trial Florian P. Thomas, MD, MA, PhD, FAAN. 002 Serum Linc LNMAT1 Correlated with Phosphorylated α -Synucleinas Serum Biomarkers of Parkinson's Disease: A Cross-Sectional Study.Jing Zou, MD, PhD, MBBS

Body Awareness: Definition & Explanation

As a member, you'll also get unlimited access to over 75,000 lessons in math, English, science, history, and more. Plus, get practice tests, quizzes, and personalized coaching to help you succeed.

About Us

BarCharts continues to work closely with other organizations to bring the most up-to-date information to the people who need it the most. These organizations help keep you informed about our new products and services, and, at the same time, help keep us "in the know" about what you want.

Vesicles: Definition & Function

As a member, you'll also get unlimited access to over 75,000 lessons in math, English, science, history, and more. Plus, get practice tests, quizzes, and personalized coaching to help you succeed.

Pre
